THE PILGRIM'S ROCK. BY MUS. AMELIA B. WELBY.

When first the lonely May Flower threw Her canvass to the breeze. To bear afar her pilgrim crew, Beyond the dark blue seas, Proud Freedom to our land had flown.

And chose it for the brave; Then formed the Nation's corner stone, And set it by the wave, Then when the pilgrims anchored there. Their stepping stone might be

That consecrated rock of prayer, The bulwark of the free. And there they stood-each pilgrim brow Was wan with grief and care. And bent each manly form, but oh-

Another sight was there : Fond woman, with her sweet sad face. All trembling pale and chill; But oh! there was in that lone place A sight more touching still-

The cheek of childhood pale with fear

And hushed its voice of glee : And they are gone, but we are here, A bulwark for the free. Our pilgrim sires are gone, yet still A nation in its pride

Hath pour'd o'er every vale and hill. In a bright unbroken tide; And still their sons shall flood the land. While that old rock appears,

Like a pilgrim's spirit born to stand The mighty wreck of years: And oh! while floats the wind and wave. That hallowed rock shall be, The threshold of the good and brave,

When the toils of the day are over, and 'night cometh,' he takes his seat at the domestic fire side and whiles away the evening in sweet converse with his little family circle. The toils of the day have been, perhaps, rather arduous-but what of that? They are drowned and forgotten in the pleasures of the evening. And then he feels a sincere pleasure on reflection, that while he rests from his labors, his business continues to flourish. His crops are growing and preparing for harvest, his cattle, &c., are fattening ready When you have any business to transfor market, and every thing prospers .-With such thoughts as these, he can calmly resign himself to the night's repose. and rise on the morrow with the returning sun, refreshed and prepared for the duties

Collect, make, save manure!- Every farmer ought to have a system of management; and the regular, daily increase of the manure heap should form an inseperable part of that system. But as there are at present, few who do this, we would earnestly recommend to all, as their crops are now 'laid by,' to commence, immediately, collecting materials and making manure.
